NEW VOLVO V60 AND V70 BI-FUEL.
GREEN, CNG- AND PETROL-DRIVEN CARS

NEW VOLVO BI-FUEL THE DRIVER'S CAR

The new Volvo V60 and V70 Bi-Fuel are drivers' cars in every way. The new four-cylinder, turbo-charged Drive-E gas and petrol-driven engine provides incredible performance – 245 hp and 350 Nm, while fuel consumption is significantly lower than its predecessor's.

The Volvo V60 and V70 are not just economically advantageous and a pleasure to drive, they are also two versatile family cars with all the comfort and safety you would expect from a Volvo. CNG-driven range is around 400 km, which together with the petrol tank adds up to almost 1,400 km.

VOLVO V60 T5 BI-FUEL

Consumption, combined driving (auto): 4.3* kg/100 km (gas),
6.4* litres/100 km (petrol).
CO₂: 38*/116*/149* g/km (biogas/CNG/petrol).
Emission standard, Euro 6.

VOLVO V70 T5 BI-FUEL

Consumption, combined driving (auto): 4.5* kg/100 km (gas),
6.7* litres/100 km (petrol).
CO₂: 41*/121*/156* g/km (biogas/CNG/petrol).
Emission standard, Euro 6.
